

FOR IMMEDIATE RELEASE

Chufly Imports and Endangered Species Chocolate provide sustainably certified products with proceeds benefiting Rainforest Trust

—In celebration of Valentine’s Day, Rainforest Trust has teamed up with Chufly Imports and Endangered Species Chocolate to create a special

communities around the globe. With its partners, Rainforest Trust has safeguarded more than 37 million acres of vital habitat. The Rainforest Trust Climate Action Fund supports projects that protect forests that cost-effectively store and sequester large quantities of carbon. The goal of Rainforest Trust is to work to permanently lock up 15 billion tons of carbon by 2025.

“Last year, nearly one acre of rainforest was lost every second, which equates to an area the size of Pennsylvania that is simply gone, up in smoke. The biodiversity is lost and the carbon once stored is now contributing to climate change,” said Leslie VanSant, vice president of philanthropy at Rainforest Trust. “Creating and maintaining protected areas is the simplest most cost-effective solution to reduce climate change. Rainforest Trust has been doing just that for nearly 34 years.”
